Introduction

Polyeducate provides an easy and intuitive platform for students to find and book lessons with qualified professors who can provide personalized support.

FEATURES

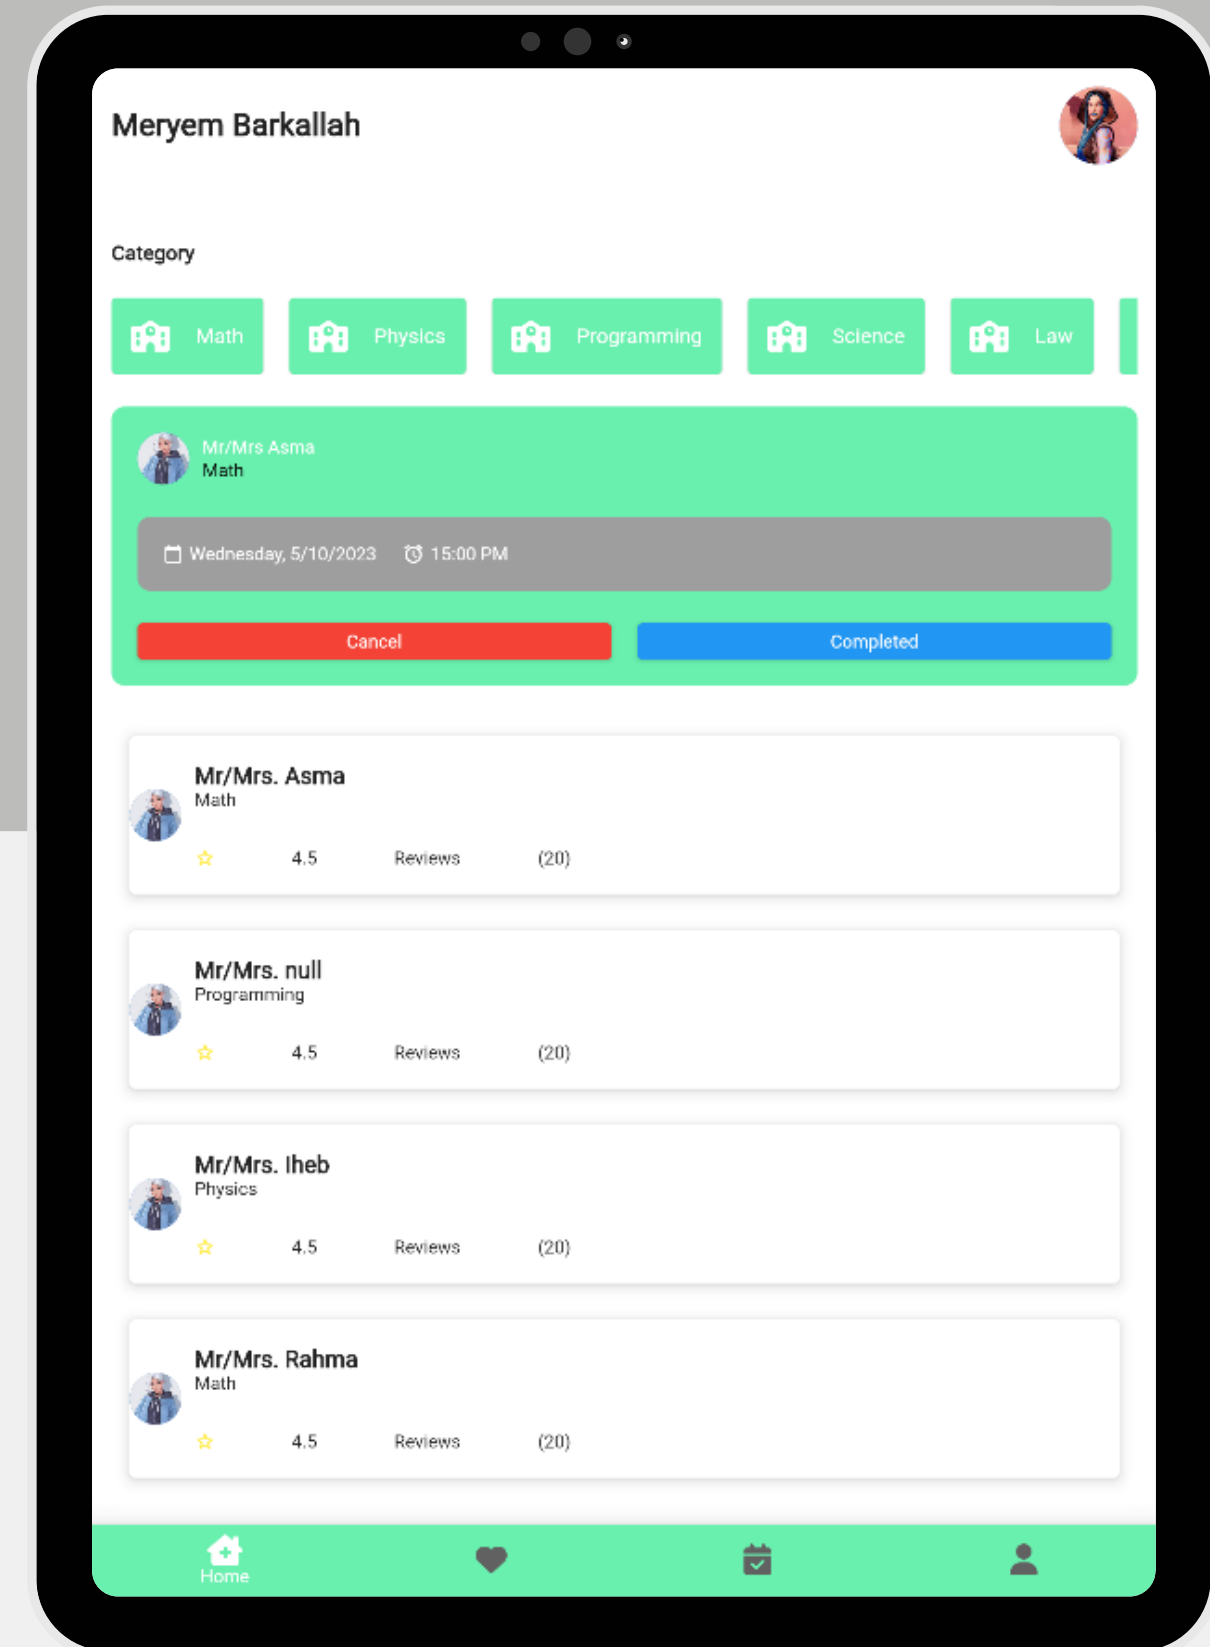

SIGN IN & SIGN UP

Users can create an account or log in to the app using their email and password.

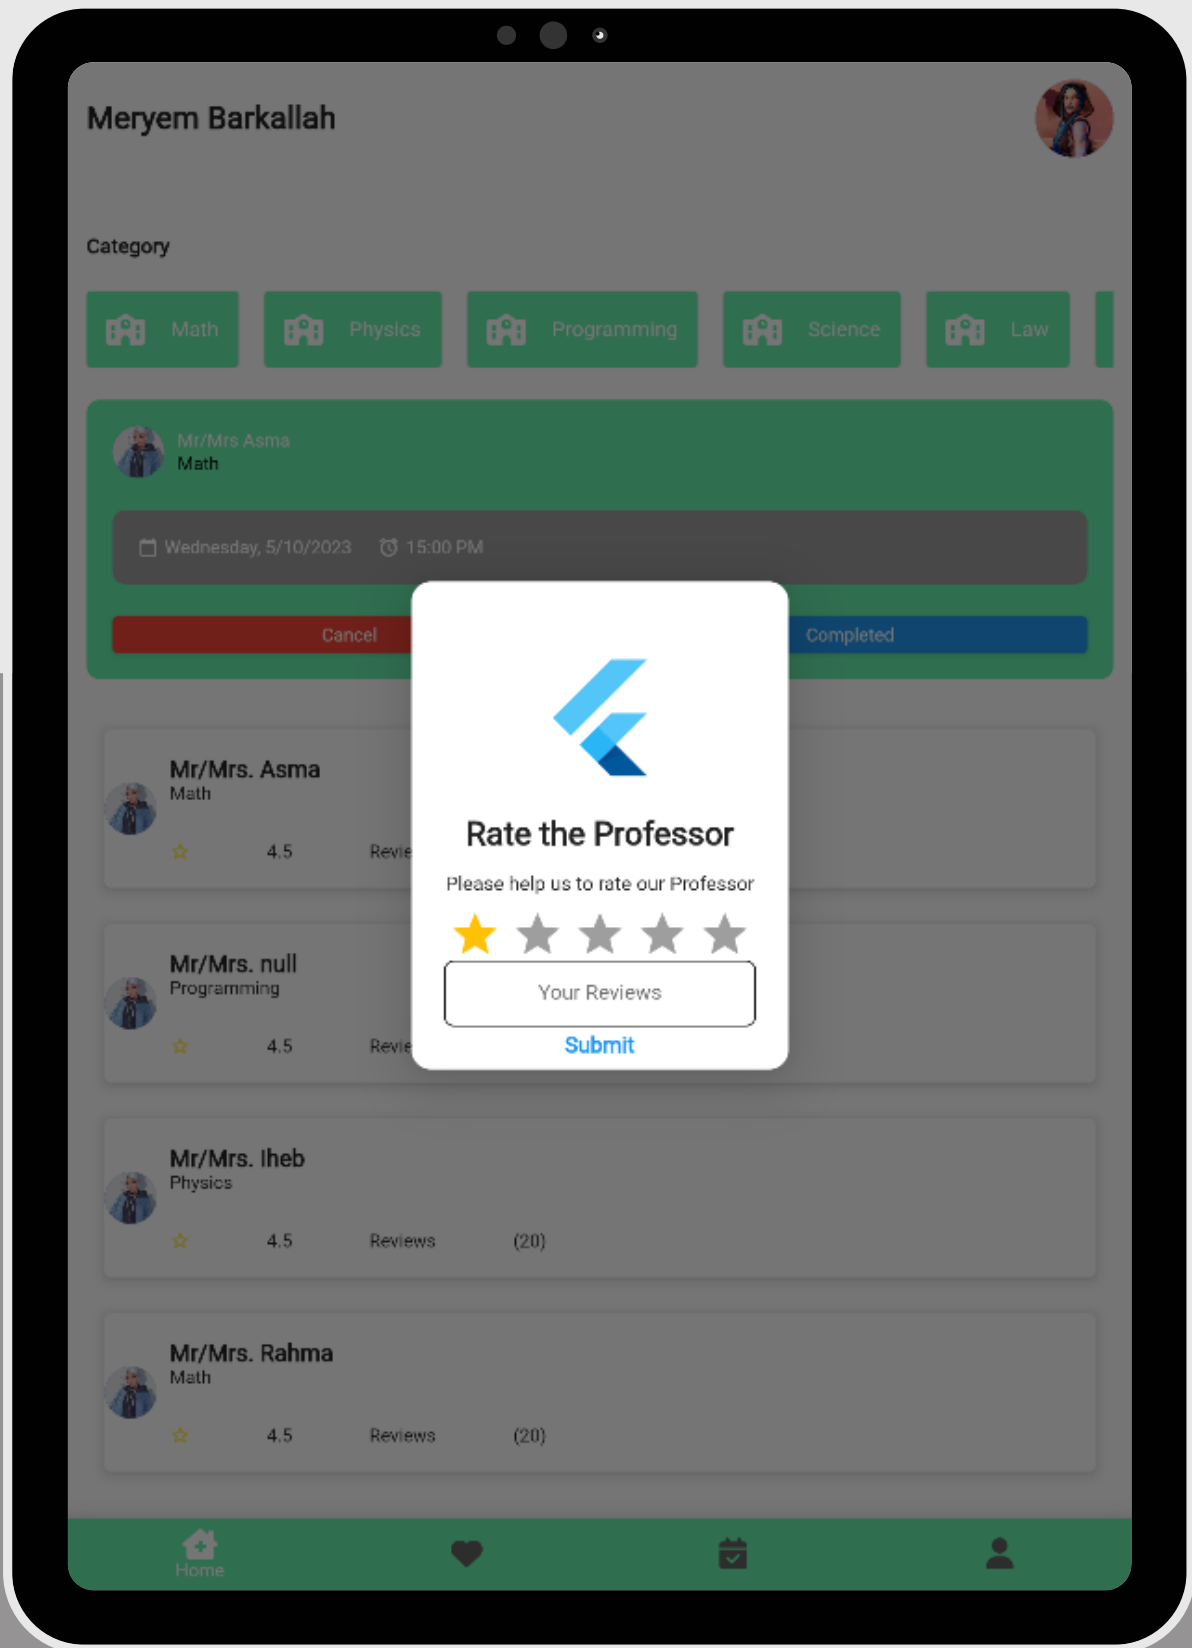

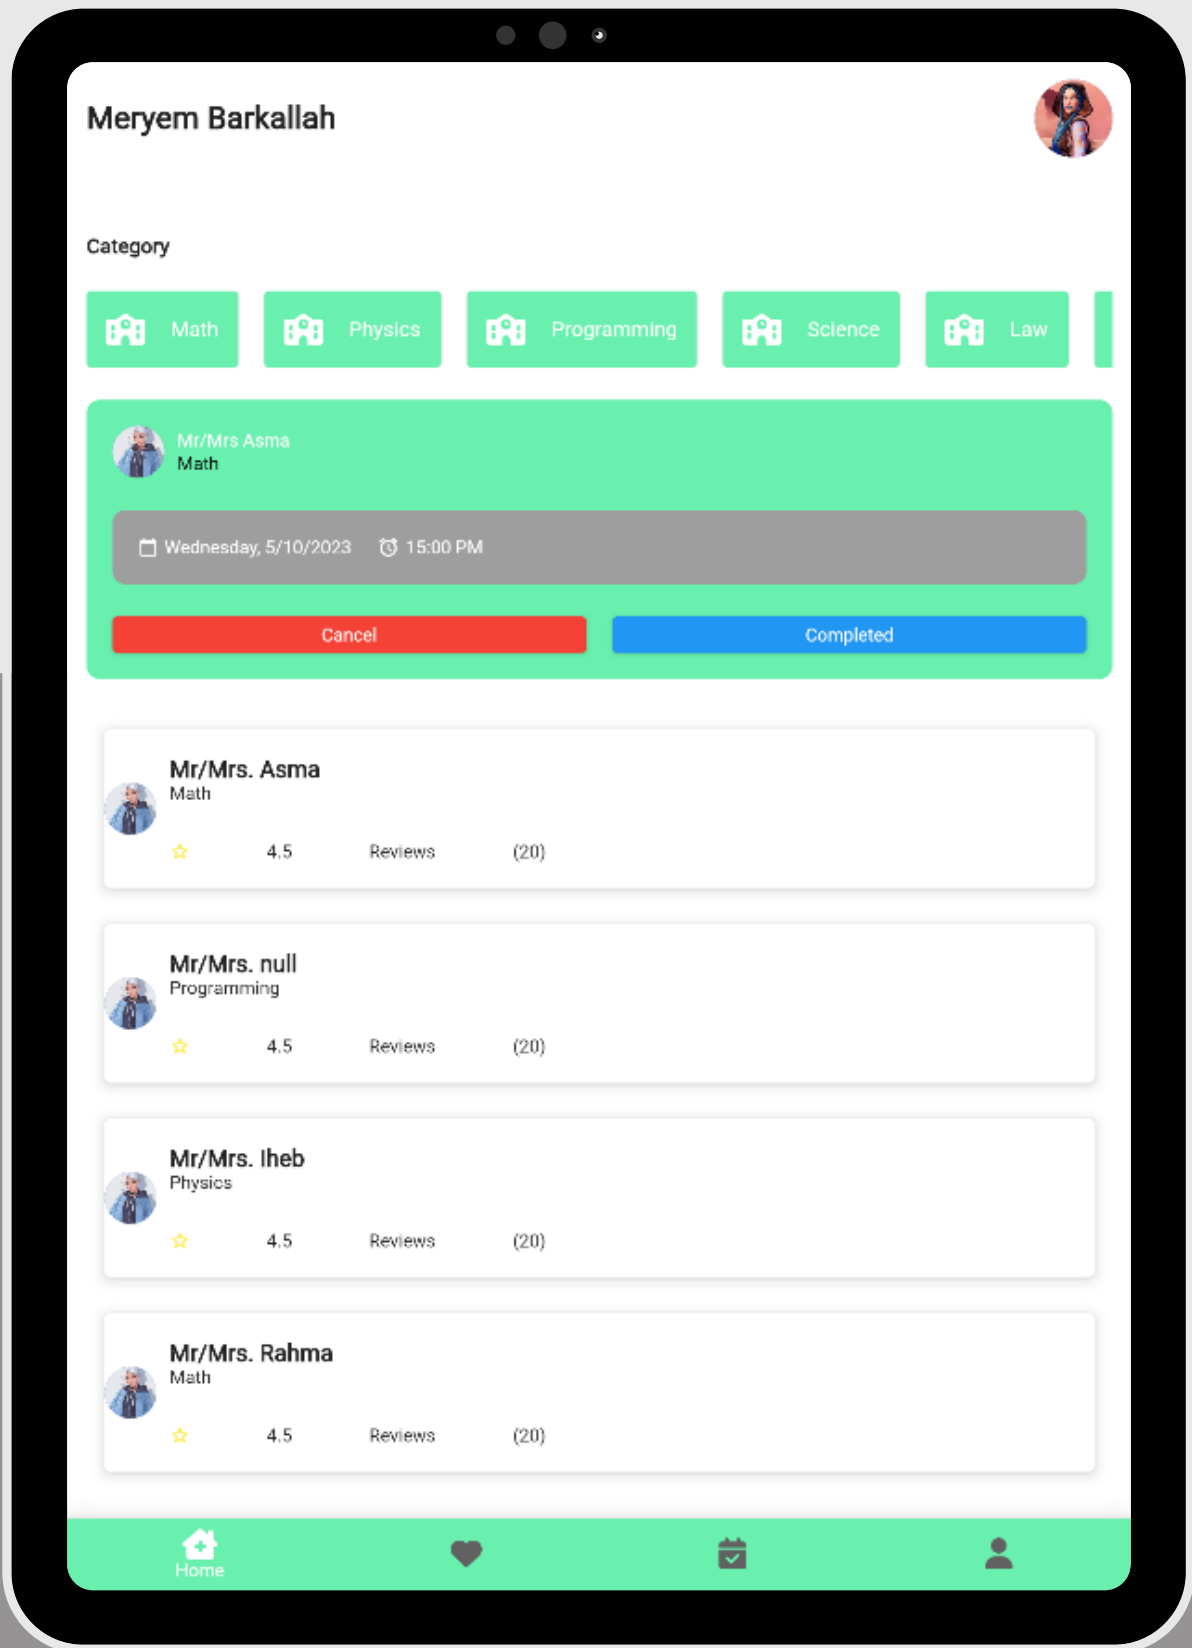

HOME PAGE

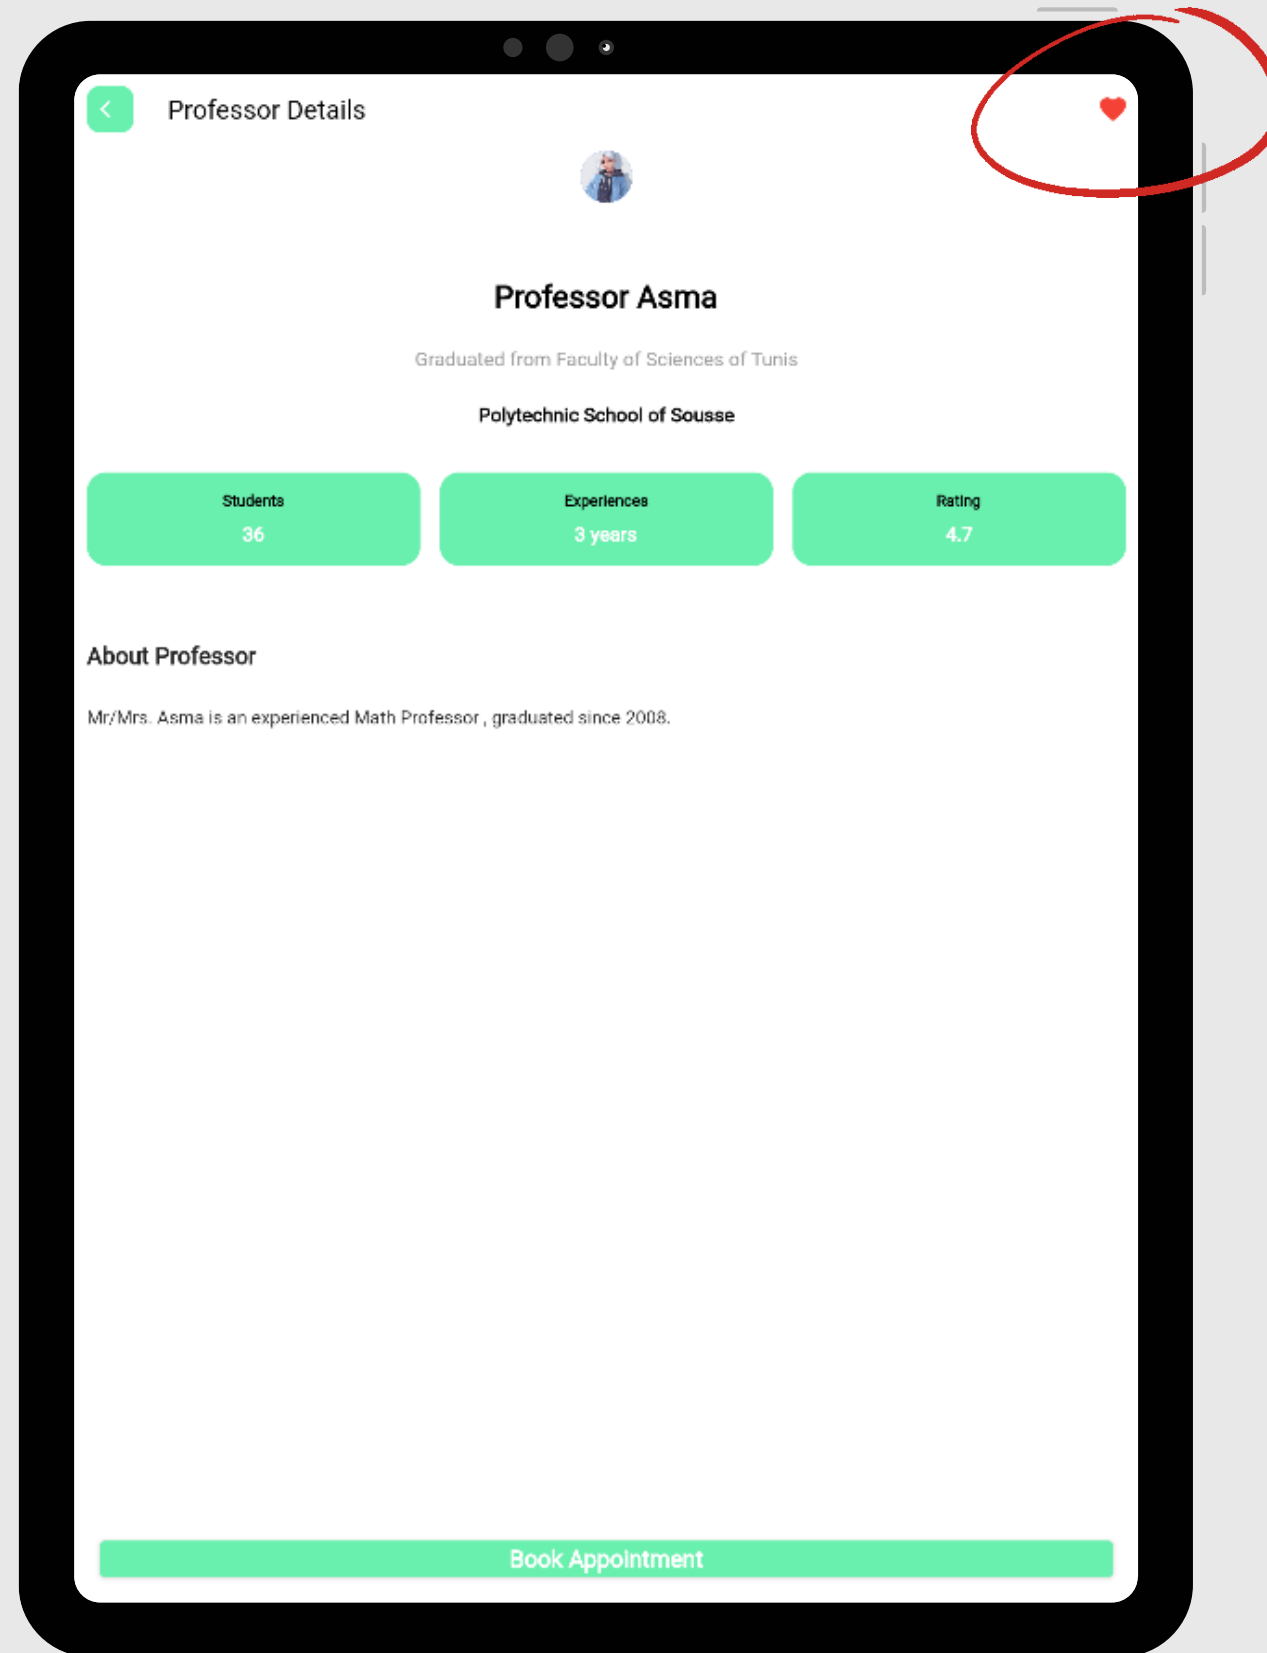

The home page displays today's classes and provides the option to press the "class completed" button to give professor rating and review. It also displays all professors so that students can pick a professor and book an appointment.

RATING & REVIEW

Professor Profile

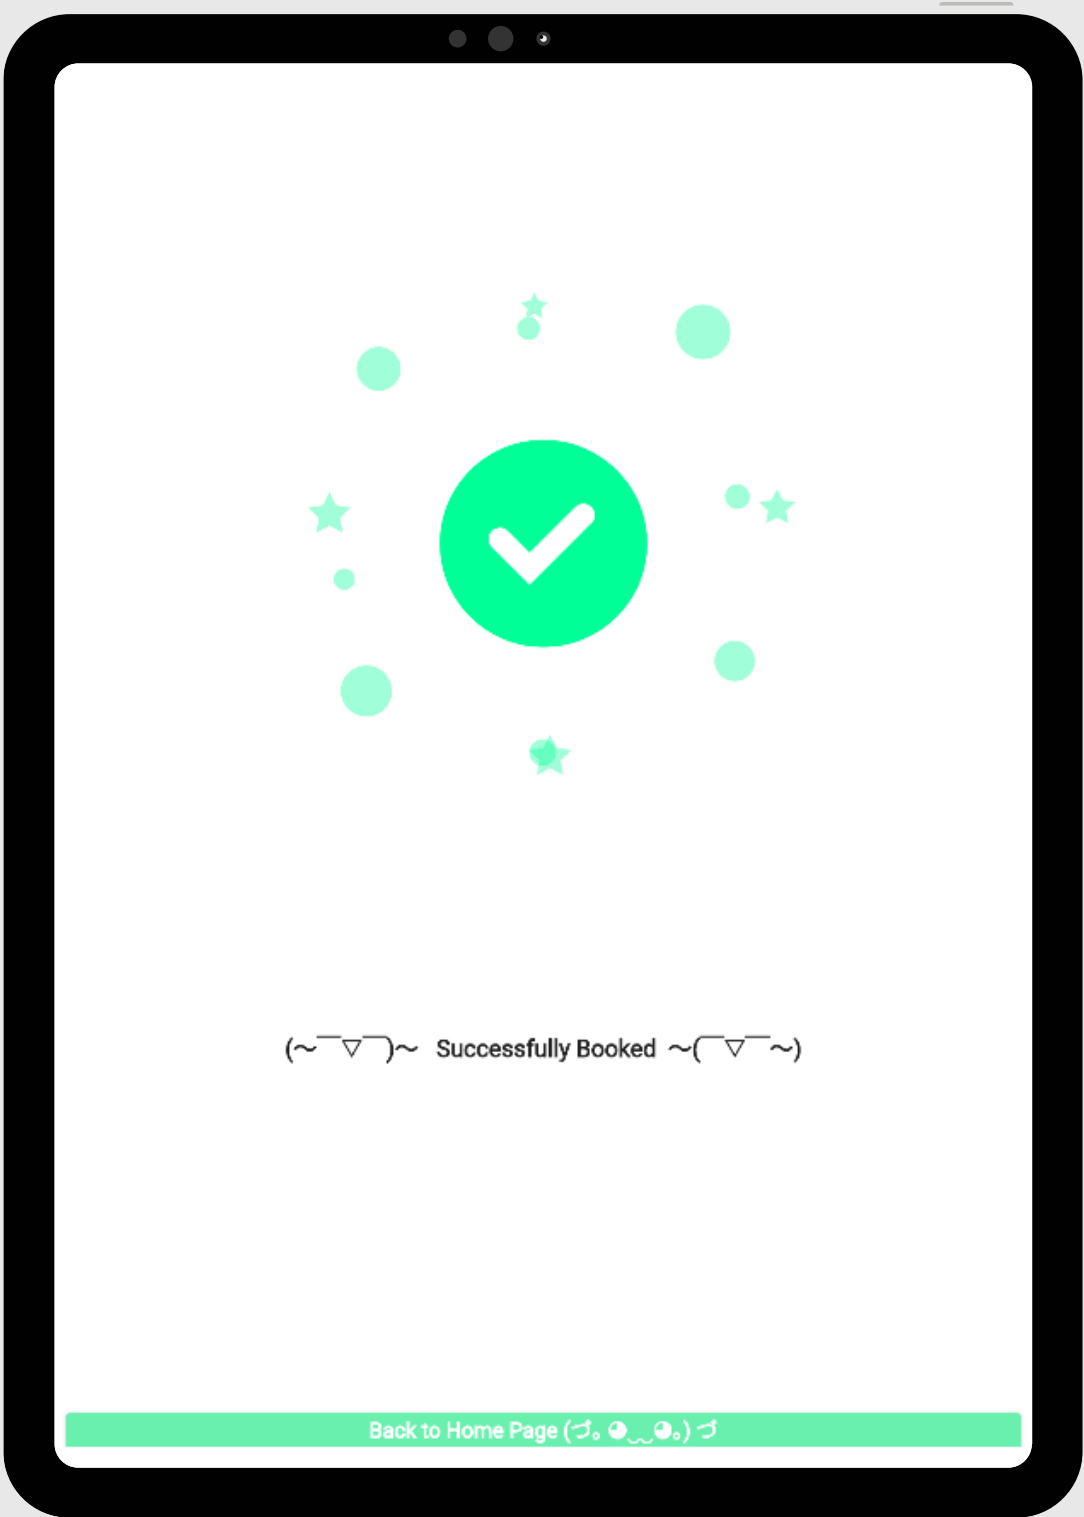

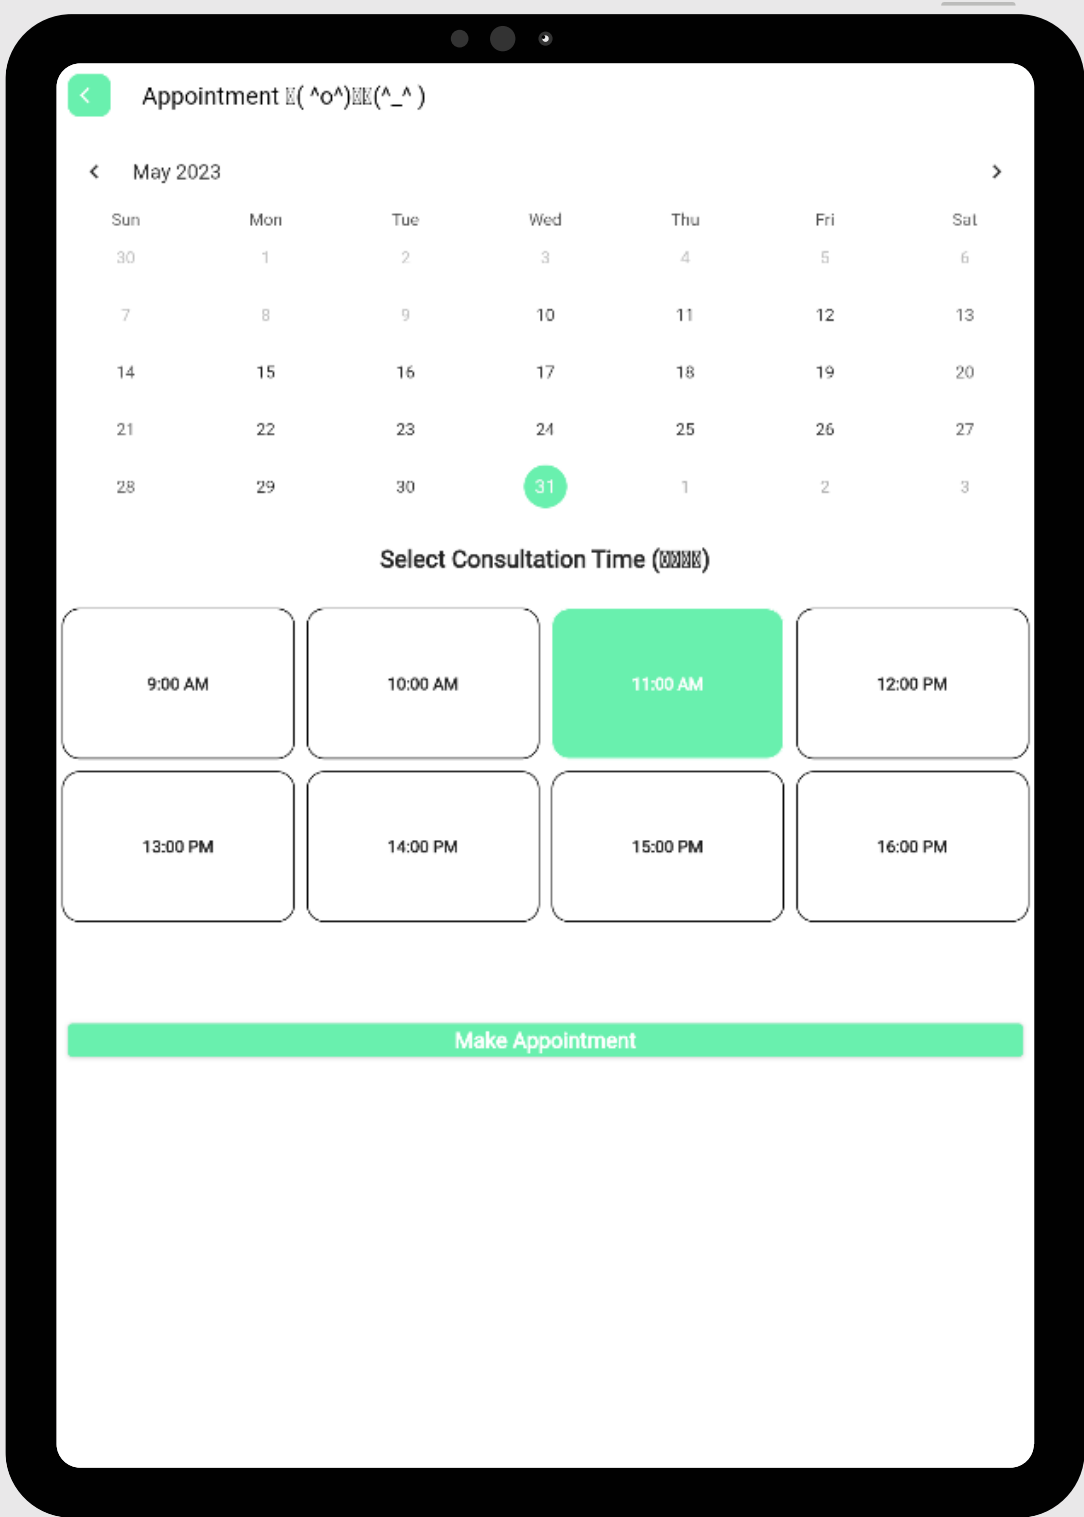

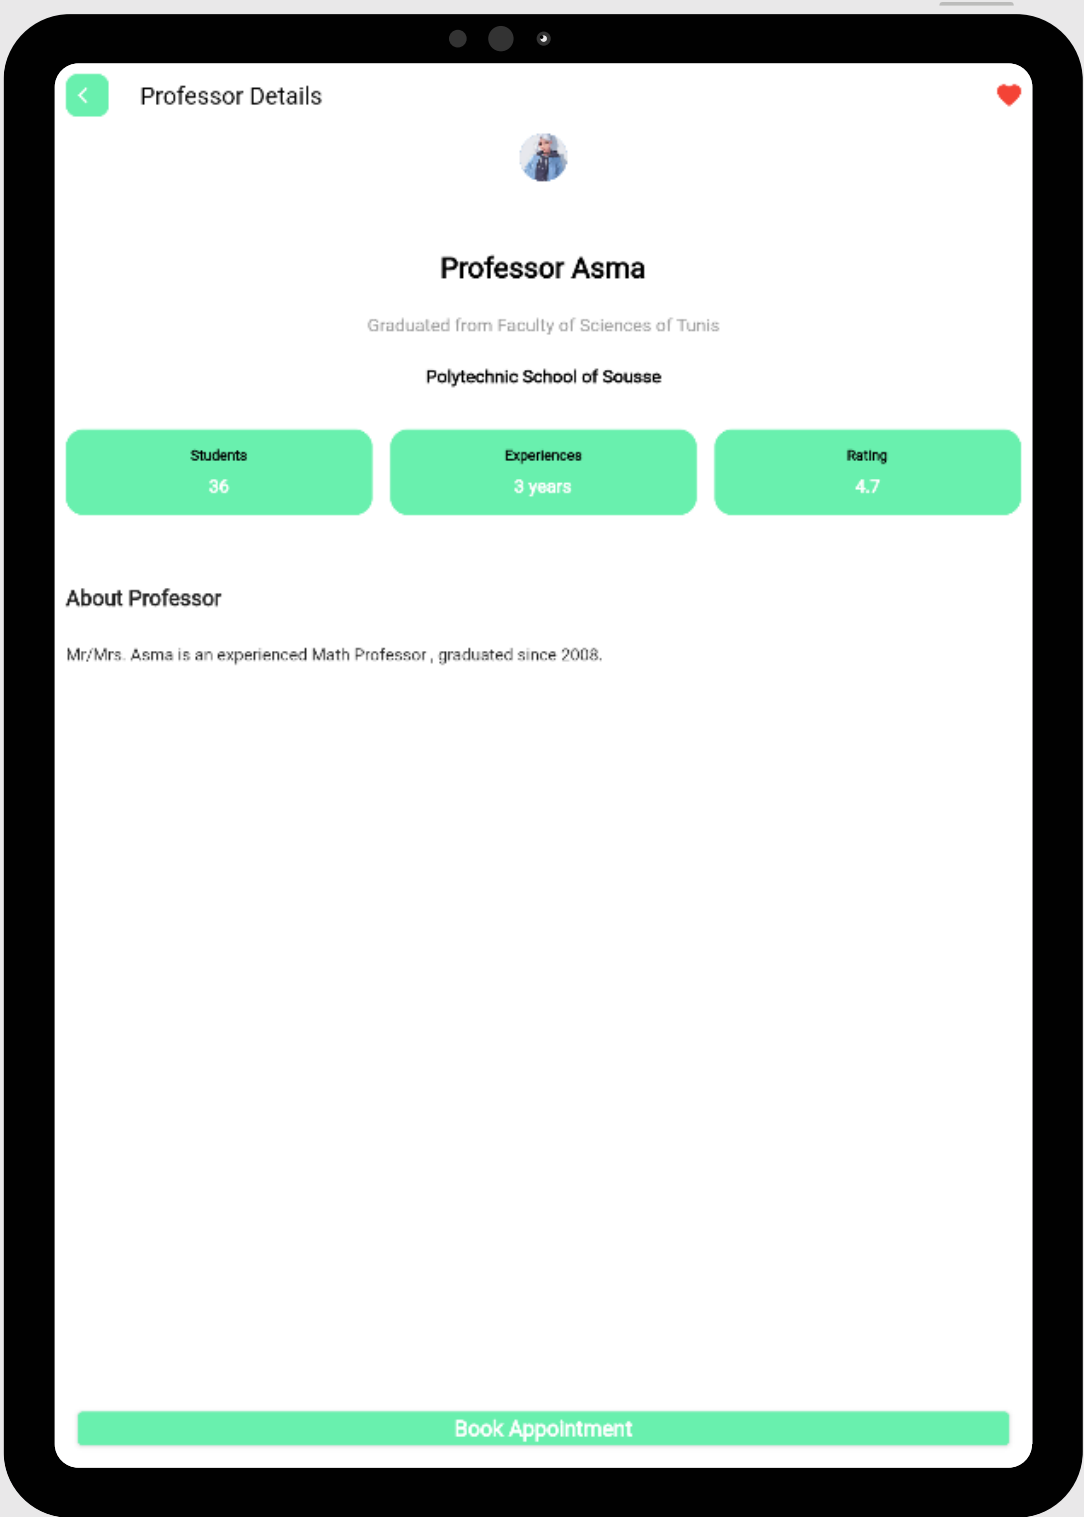

Clicking on a professor's name takes the student to the professor's profile, which displays their details such as name, rating, school, and the number of students.

The profile page also has a heart on top, which, when clicked, adds that professor to the student's favorites.

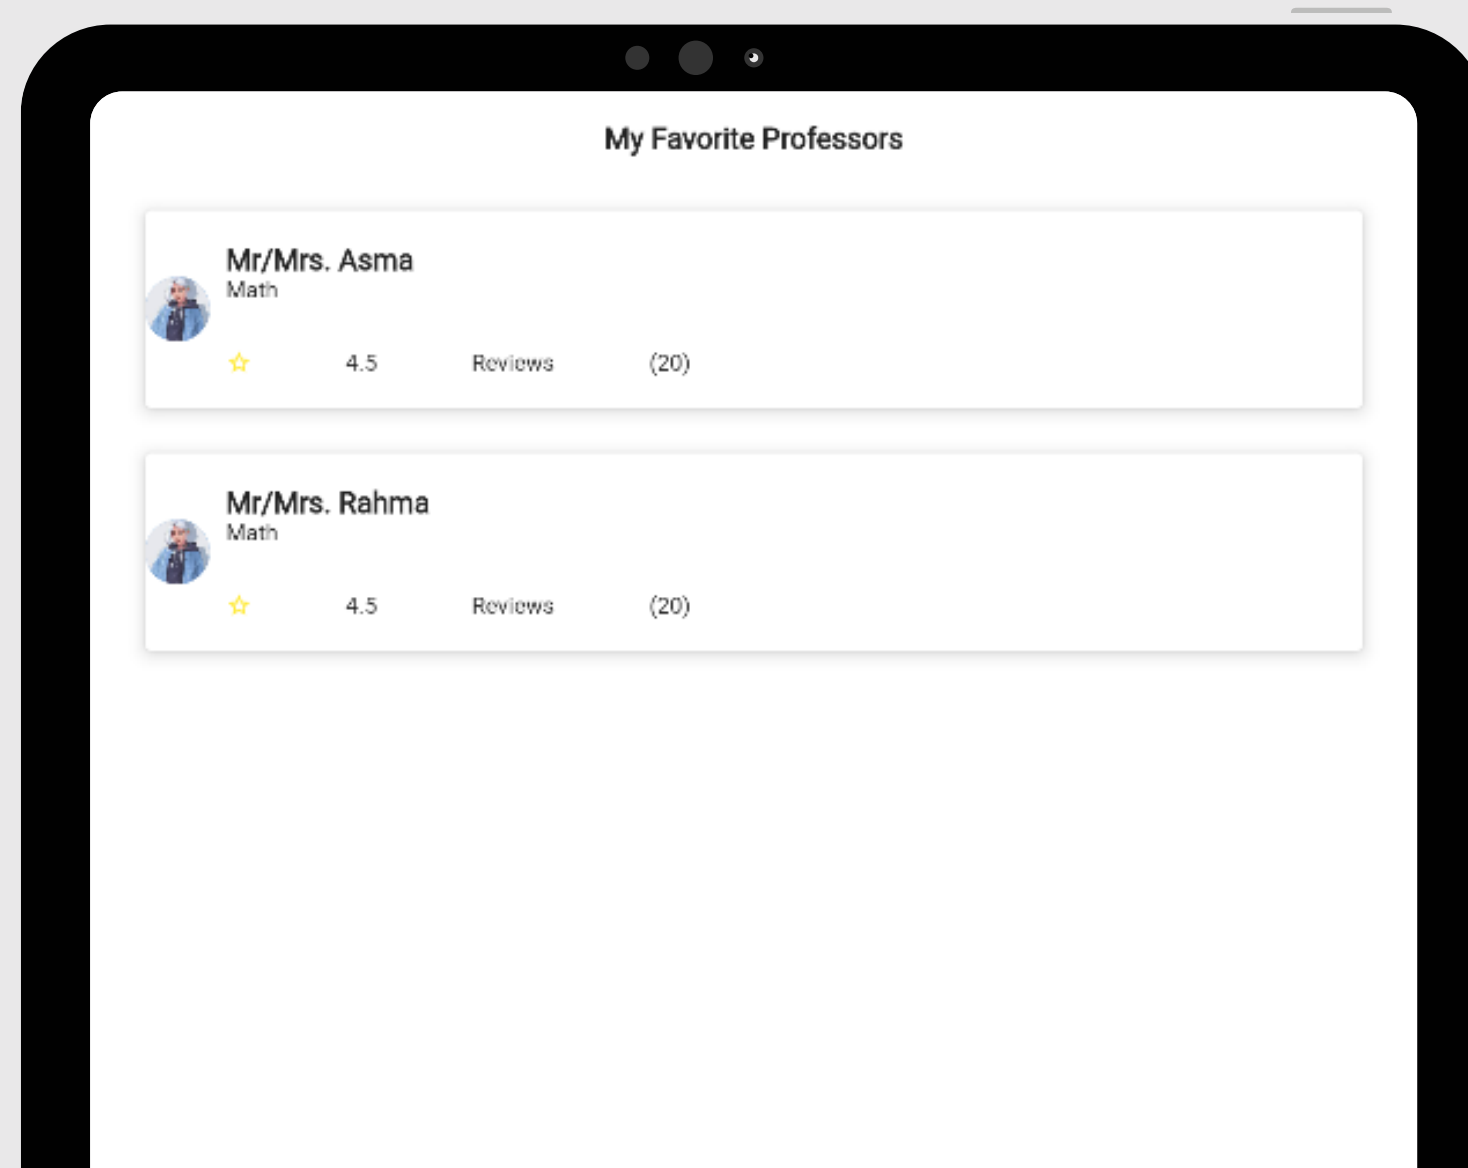

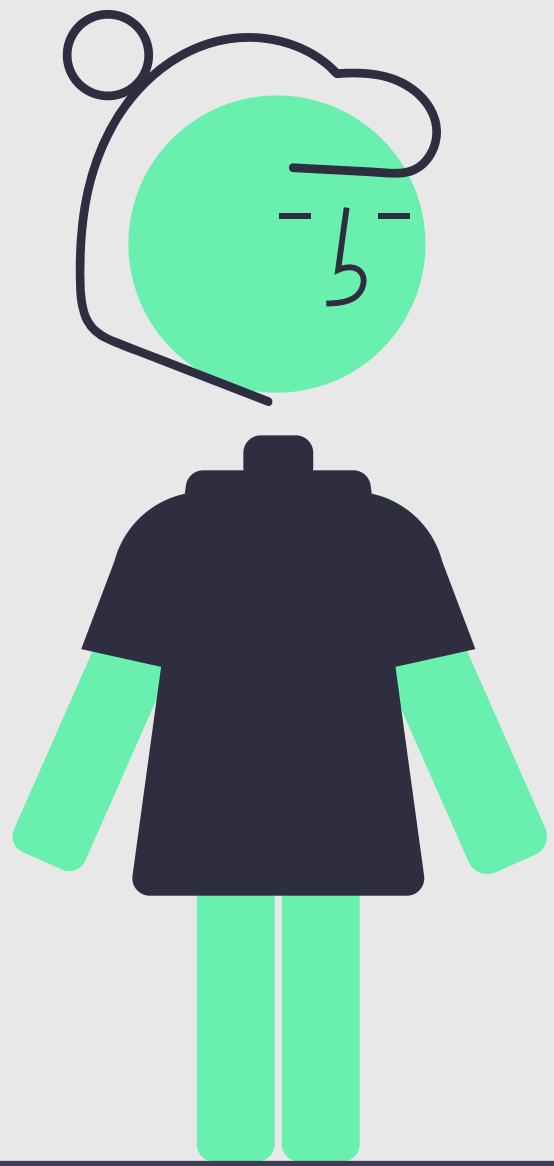

Book an appointment

The student can also book an appointment

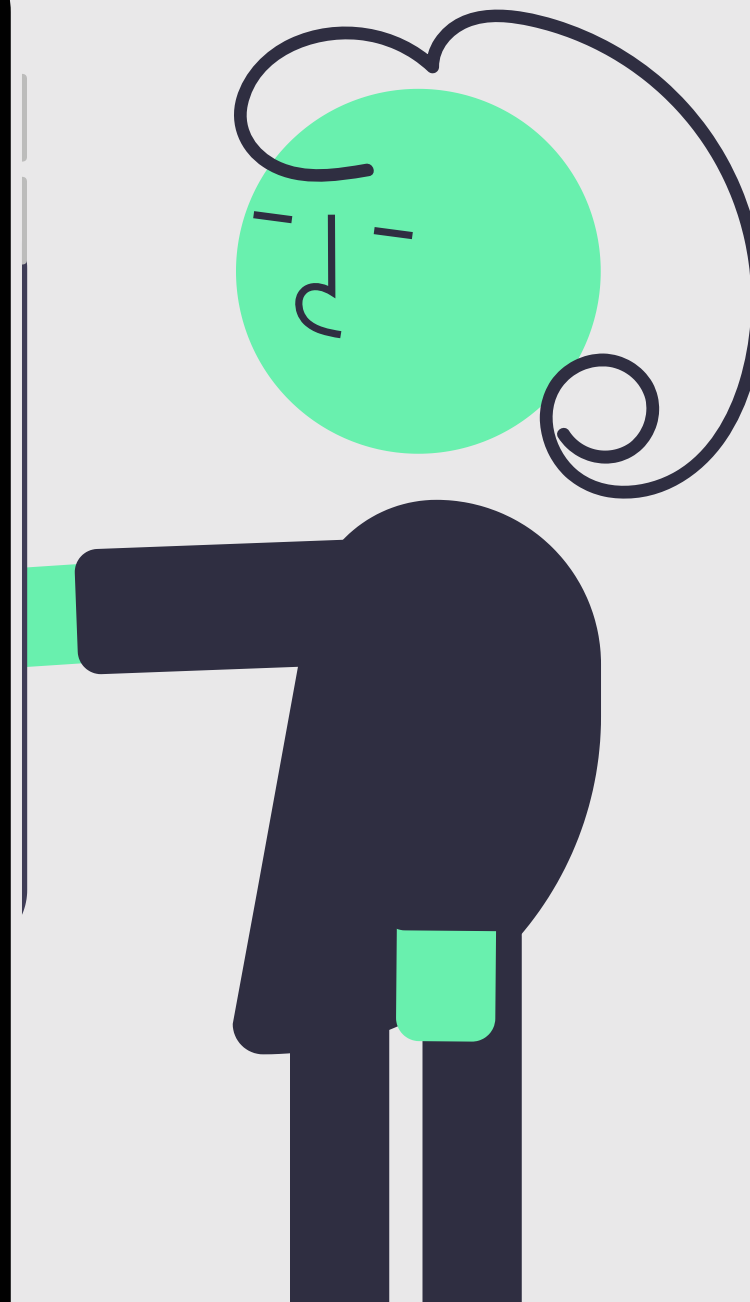

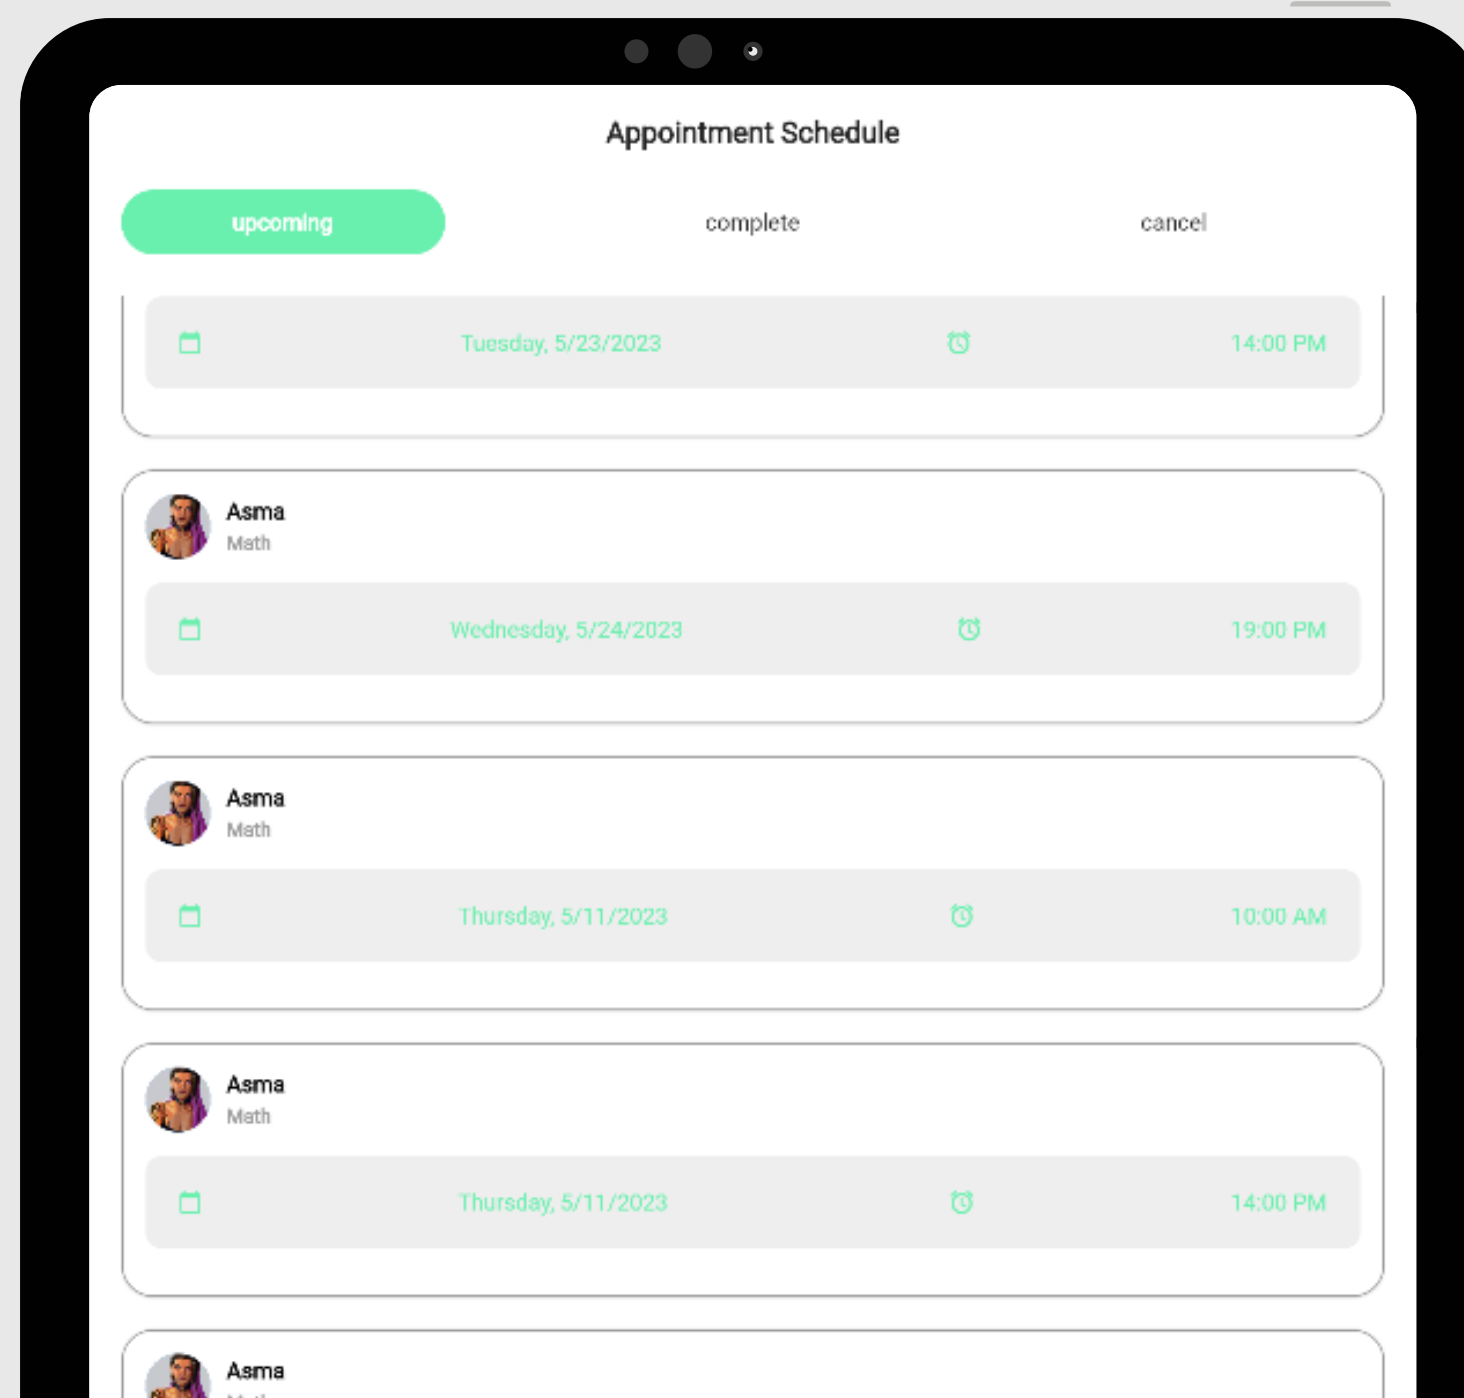

Favorites Page

The app has a page that displays all favorite professors, making it easy for students to find and book lessons with them.

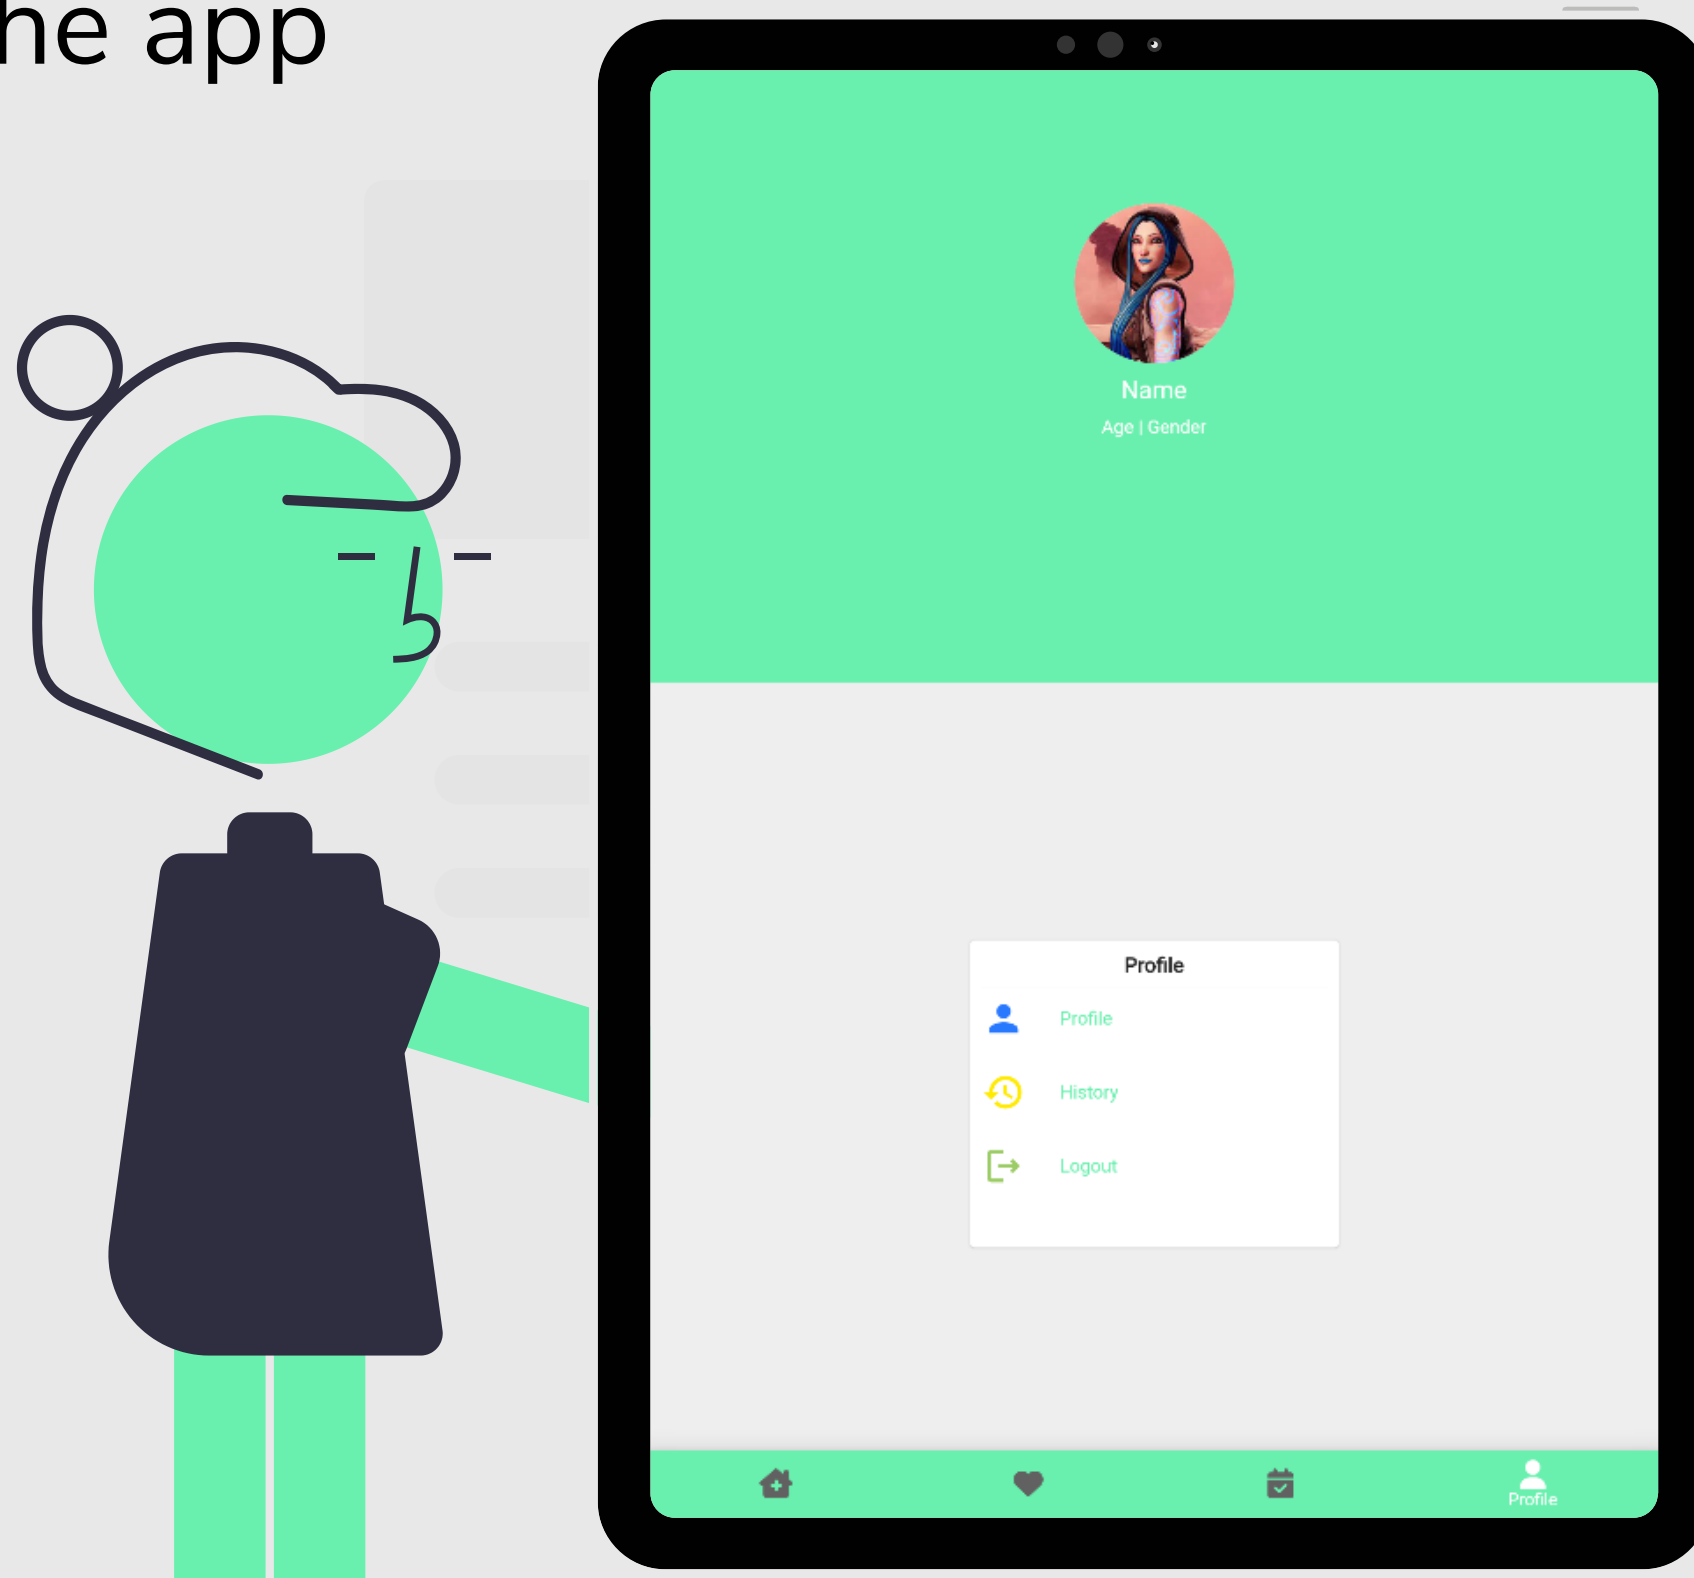

Appointments Page

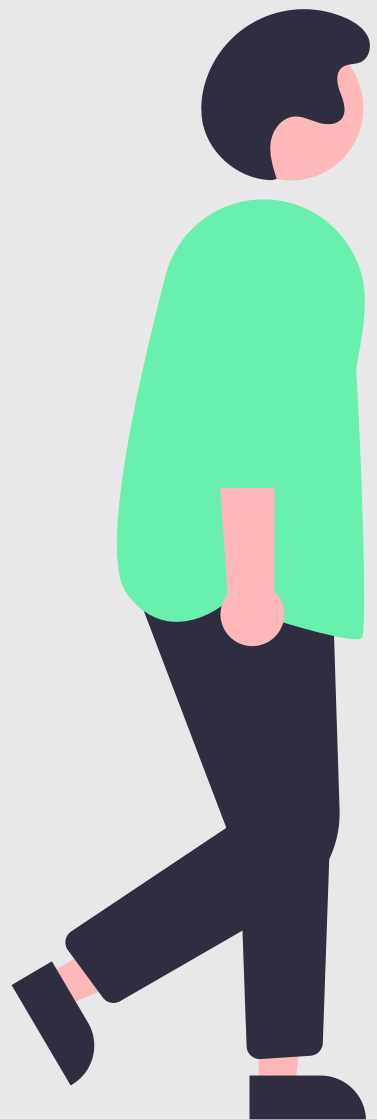

The app also has a page that displays all appointments, including the date, time, and professor name.

Profile Page

The profile page displays the user's details. It also provides the option to log out of the app

Technology Stack:

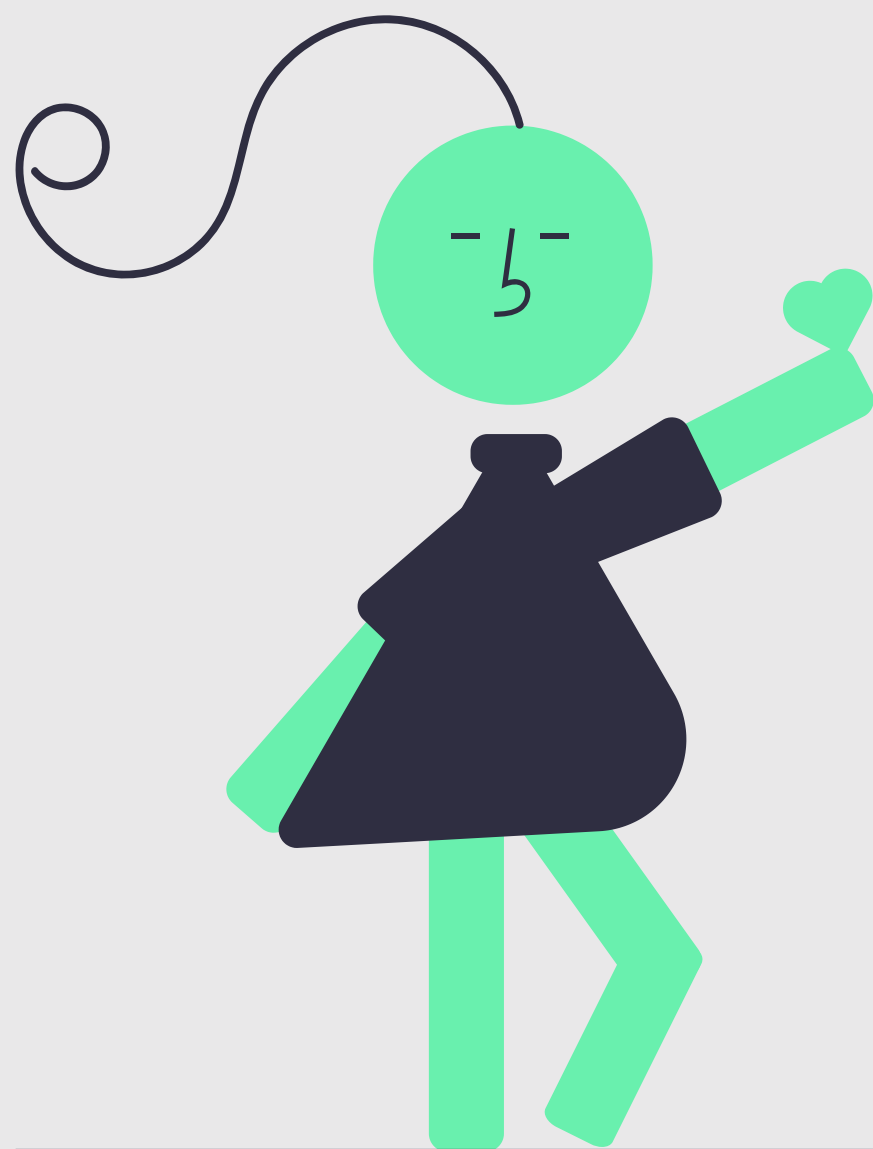

The app was developed using Flutter for the frontend and Laravel for the backend. Dio was used to connect the frontend and backend, and MySQL was used as the database.

Conclusion

Polyeducate is a useful app that addresses the needs of students seeking academic support.

Its easy-to-use interface, range of functionalities, and user-friendly design make it a valuable tool for students of all levels.

Thanks!
